

WORKERS' COMP SELF-INSURED GROUP

CRMBC

CALIFORNIA RESTAURANT
MUTUAL BENEFIT CORP

By Restaurant Owners. For Restaurant Owners.

The California Restaurant Mutual Benefit Corp (CRMBC) is the only Workers' Comp Self-Insured Group for California Restaurants.

High and unpredictable workers' comp insurance premiums are a common struggle for restaurant owners, often straining budgets and limiting control over claim outcomes.

CRMBC offers restaurateurs a self-insured group option, delivering greater control and cost savings. Our approach improves claims outcomes, financial stability, and clearer business management practices.

Prioritizing Members' Interests Over Shareholder Profits

CRMBC is owned, operated, and governed by its members, ensuring their interests are the top priority. Unlike traditional insurers focused on shareholder profits, CRMBC provides:

“ Marmalade Cafe has been self-insuring its work comp for over 20 years because we would rather control how the money is spent than contribute to the profits of a traditional insurance company. When CRMBC performs well, we can share in our profits.
